

DA180: Dental Assisting Externship

Credit Hours: 7

Clock Hours: 0/0/320

This course is an integral part of the learning experience for the student. Students are assigned to a dental facility in order to gain everyday practical and clinical experience in the duties and functions of a Dental Assistant and to have the opportunity to apply educational training in a clinical environment. Students rotate between a general dentistry and a specialized dentistry office.

Prerequisites:

DA110-DA170
