Program Overview

The Concorde Memphis Associate of Applied Science in Nursing Practice program prepares students for entry-level, Registered Nurse positions. Successful completion of the Nursing program leads to the award of an Associate of Applied Science in Nursing Practice degree and permits the graduate to apply to take the National Council Licensure Examination for Registered Nurses® (NCLEX-RN) and to the Tennessee State Board of Nursing for licensure.

Program Mission

The mission of the Concorde Career College Associate of Applied Science in Nursing Practice program is to prepare compassionate nurses who demonstrate cultural competence, professionalism, integrity, and the provision of quality service to all humankind.

Program Philosophy

The philosophy of Concorde Career College's nursing program is to prepare nurses to function safely and effectively in the generalist role. We strive to prepare culturally competent nurses while demonstrating professionalism, unwavering service, disseminating evidence-based nursing knowledge, and a rigorous curriculum with high regard to the quality and safety standards of nursing education. In congruence with Concorde Career College's general mission statement, the goal of the nursing program is to equip students for successful employment in the field of nursing through high caliber training with practical, real world experiences along with student centered support.

Program Purpose

The purpose of the Concorde Memphis Associate of Applied Science in Nursing Practice program is to:

- Provide a learning environment that will lead to successful completion of program objectives
- Prepare a responsible and accountable professional nurse who uses critical thinking while providing competent, safe, client/patient care.
- Prepare the graduate to provide nursing care in a variety of settings.
- Prepare the graduate to value personal and professional growth as lifelong learners.
- Prepare the graduate to successfully pass the NCLEX-RN® examination on first attempt and become gainfully employed.

Graduate Student Learning Outcomes

Upon completion of the program, it is intended that the students will:

- Provide safe, compassionate, culturally competent, patient-centered, quality care in a variety of settings for patients across the lifespan in response to their changing health needs.
- Examine the evidence that underlies clinical nursing practice to challenge the status quo, question underlying assumptions, and offer new insights to improve the quality of care for patients, families, and communities.

- Use the nursing process to make judgments in practice, substantiated with evidence, that integrate nursing science in the provision of safe, quality care and promote the health of patients within a family and community context.
- Demonstrate excellence using evidence-based practice in integrity, responsibility, professional identity, and ethical decision making in the role of the nurse while advocating for patients, families, colleagues, community, and self.
- Utilize information technology, professional standards, and professional communication to emerge as leaders in interprofessional collaboration in the provision of safe, quality, care for patients and families.

Career Overview

As a vital member of the healthcare team, the Nurse combines nursing skills with human understanding to care for both chronically and acutely ill patients in a variety of settings. Nurses collaborate with members of the interprofessional healthcare team to provide safe, caring and compassionate nursing care to diverse patients across the lifespan. Nurses educate patients and the public about various health conditions and provide advice and emotional support to patients and their family members.

In order to graduate from the Nursing Practice (Associate of Applied Science) program, students must successfully complete the following curriculum:

Program Delivery
